COMPANY INTRODUCTION

Titanium Oil Trading LLC is an independent commodities brokerage based in Michigan, USA.

Our focus is Iraqi oil — principally Basrah Medium, Iraq's principal export grade, alongside Basrah Heavy. We work with qualified refining companies and trading houses that source these grades, supporting their procurement requirements from first contact through to contract and lifting.

How we work: we assist qualified buyers in preparing and presenting their purchasing requirements to Iraq's official oil marketing channel. Supply contracts are concluded directly between the buyer and Iraq's State Oil Marketing Organization (SOMO) — the seller of Iraq's export oil — in the buyer's own name, based on the buyer's own refining capacity and standing. Our role is professional facilitation — preparation, presentation, and follow-up — handled directly, without long intermediary chains, and with full and proper documentation at every stage. Through this direct structure we are positioned to carry a qualified buyer's file from first presentation to a concluded supply contract with SOMO and on to lifting — to completion, not merely to submission.

In addition to oil, the company is active in Iraqi bitumen — penetration grades 50/70, 60/70 and 70/100, export-licensed and supplied in jumbo bags, drums or bulk — and in Iraqi granular sulfur of 99.9% minimum purity, each against documented supply with independent inspection at loading.

We welcome direct contact from qualified refining companies regarding Iraqi oil requirements (grades, volumes, delivery basis).

公司简介

Titanium Oil Trading LLC 是一家总部位于美国密歇根州的独立大宗商品经纪公司。

我公司专注于伊拉克石油贸易，主要品种为 Basrah Medium（巴士拉中质，伊拉克主要出口品种）和 Basrah Heavy（巴士拉重质）。我们与具备资质的炼油企业和贸易公司合作，为其采购需求提供对接与协助服务，涵盖从初次接洽到合同签订及提油的全过程。

工作方式：我公司协助合格买方准备并提交其采购需求文件，通过伊拉克官方石油销售渠道进行对接。供油合同由买方与伊拉克国家石油销售公司（SOMO）以买方自身名义直接签订，其依据是买方自身的炼油能力和资信状况。我公司的角色是专业协助——文件准备、需求呈报与后续跟进——直接对接，不设准长的中间环节，全过程文件完整、规范。通过这一直接结构，本公司能够将合格买方的文件从首次呈报推进到与 SOMO 缔结供油合同并完成提油——直至完成交易，而非仅仅提交文件。

除石油外，我公司还经营伊拉克沥青业务——针入度等级 50/70、60/70 和 70/100，持有出口许可，可采用吨袋、铁桶或散货方式供货——以及纯度不低于 99.9% 的伊拉克颗粒硫磺；每项业务均有文件完备的供货渠道，并在装货时接受独立检验。

欢迎具备资质的炼油企业就伊拉克石油采购需求（品种、数量、交货方式）直接与我公司联系。
